(1) Required by the Basel Convention.  
 (2) In the case of an R12/R13 or D13-D15 operation, also attach corresponding information on any subsequent R12/R13 or D13-D15 facilities and on the subsequent R1-R11 or D1-D12 facility(ies) when required  
 (3) To be completed for movements within the OECD area and only if B(ii) applies  
 (4) Attach detailed list if multiple shipments  
 (5) See list of abbreviations and codes on the next page  
 (6) Attach details if necessary  
 (7) Attach list if more than one  
 (8) If required by national legislation  
 (9) If applicable under the OECD Decision

## List of abbreviations and codes used in the notification document

<b>DISPOSAL OPERATIONS (block 11)</b>																																															
D1	Deposit into or onto land (e.g. landfill, etc.)																																														
D2	Land treatment (e.g., biodegradation of liquid or sludgy discards in soils, etc.)																																														
D3	Deep injection (e.g. injection of pumpable discards into wells, salt domes or naturally occurring repositories, etc.)																																														
D4	Surface impoundment (e.g. placement of liquid or sludge discards into pits, ponds or lagoons, etc.)																																														
D5	Specially engineered landfill (e.g. placement into lined discrete cells which are capped and isolated from one another and the environment, etc.)																																														
D6	Release into a water body except seas/oceans																																														
D7	Release into seas/oceans including sea-bed insertion																																														
D8	Biological treatment not specified elsewhere in this list which results in final compounds or mixtures which are discarded by means of any of the operations in this list																																														
D9	Physico-chemical treatment not specified elsewhere in this list which results in final compounds or mixtures which are discarded by means of any of the operations in this list (e.g. evaporation, drying, calcination, etc.)																																														
D10	Incineration on land																																														
D11	Incineration at sea																																														
D12	Permanent storage (e.g. emplacement of containers in a mine, etc.)																																														
D13	Blending or mixing prior to submission to any of the operations in this list																																														
D14	Repackaging prior to submission to any of the operations in this list																																														
D15	Storage pending any of the operations in this list																																														
<b>RECOVERY OPERATIONS (block 11)</b>																																															
R1	Use as a fuel (other than in direct incineration) or other means to generate energy (Basel/OECD) - Use principally as a fuel or other means to generate energy (EU)																																														
R2	Solvent reclamation/regeneration																																														
R3	Recycling/reclamation of organic substances which are not used as solvents																																														
R4	Recycling/reclamation of metals and metal compounds																																														
R5	Recycling/reclamation of other inorganic materials																																														
R6	Regeneration of acids or bases																																														
R7	Recovery of components used for pollution abatement																																														
R8	Recovery of components from catalysts																																														
R9	Used oil re-refining or other reuses of previously used oil																																														
R10	Land treatment resulting in benefit to agriculture or ecological improvement																																														
R11	Uses of residual materials obtained from any of the operations numbered R1-R10																																														
R12	Exchange of wastes for submission to any of the operations numbered R1-R11																																														
R13	Accumulation of material intended for any operation in this list.
